Devices

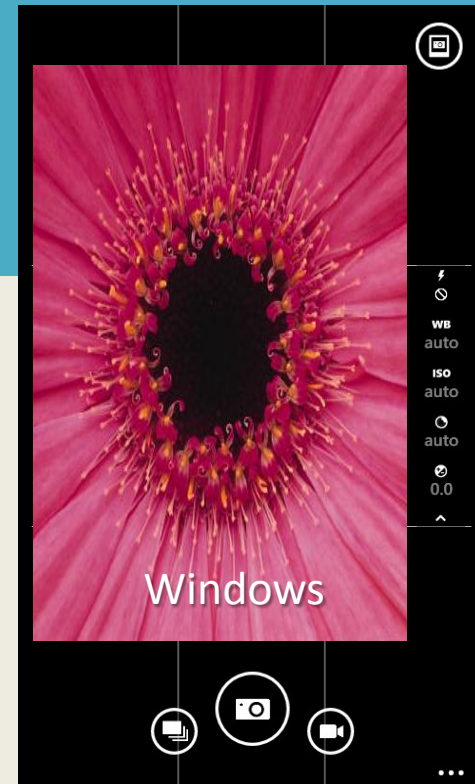

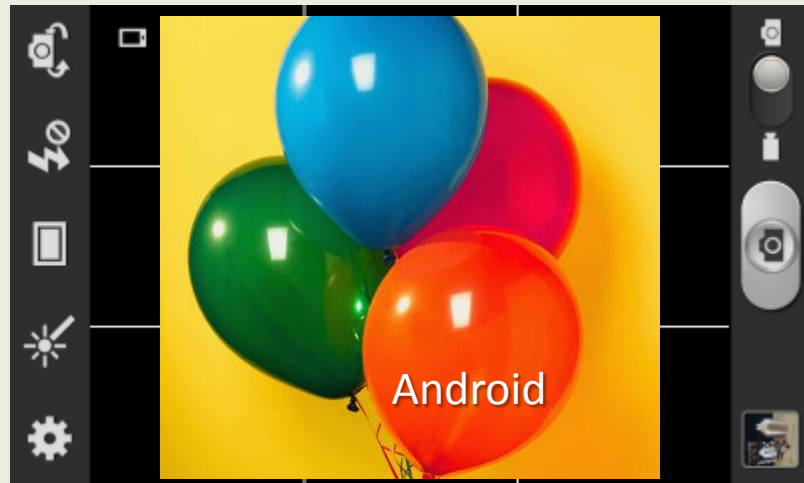

Taking & Editing Photos

Which device do you have?

- iPhone
- iPad
- Android Phone
- Android Tablet
- Windows Phone
- Windows Tablet
- Something Else?

They all work basically the same...

Some have more options than others

Front/Rear Camera

Preset Filter (scenes)*

Timer 3s, 10s*

High
Dynamic
Range
(Auto)*

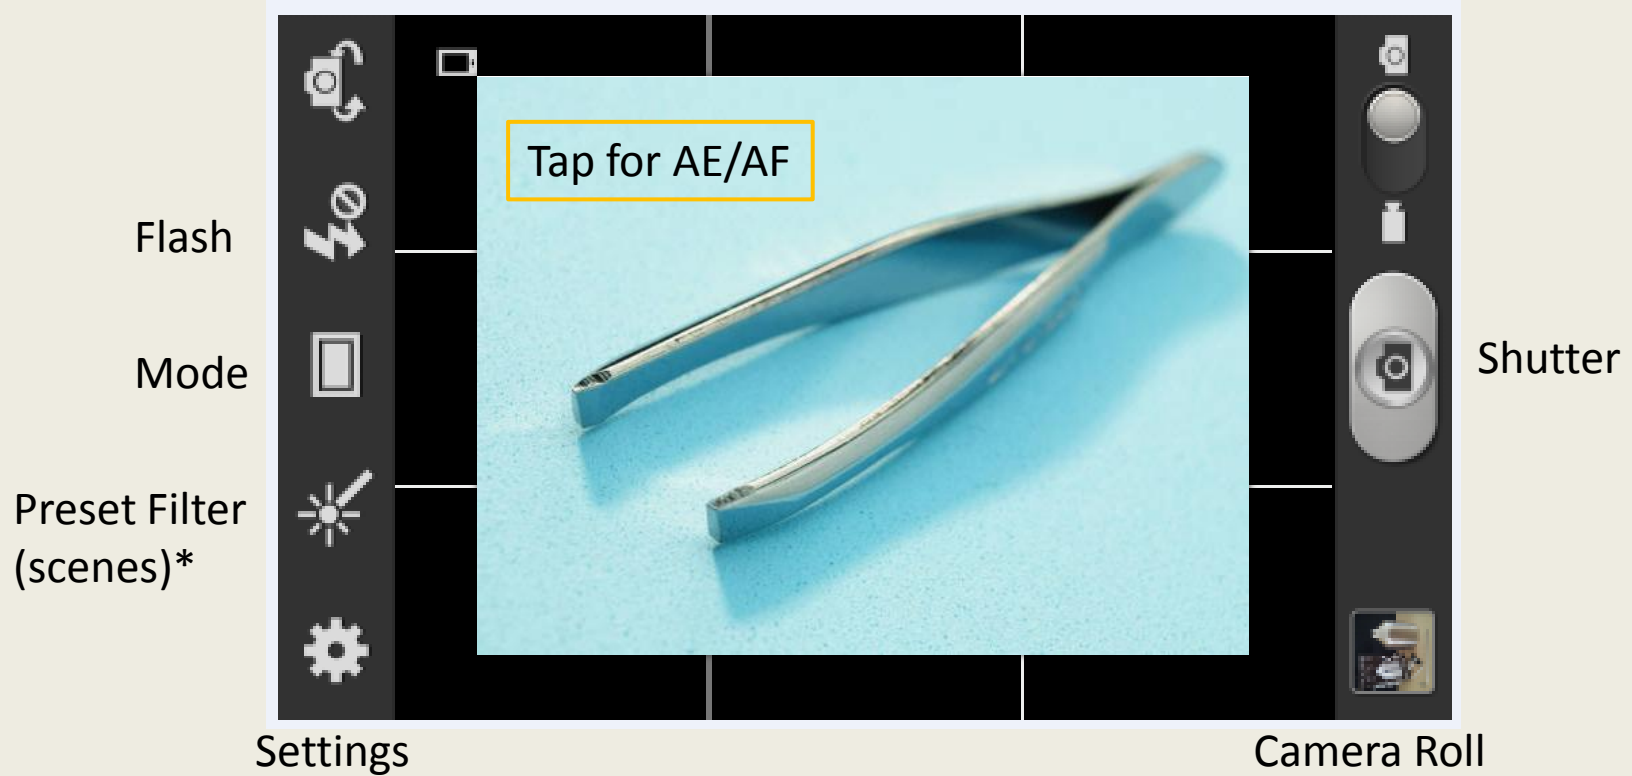

Flash

Camera Roll

Modes: Time Lapse*, Slo-Mo*, Video, Photo, Square, Pano*

Filter

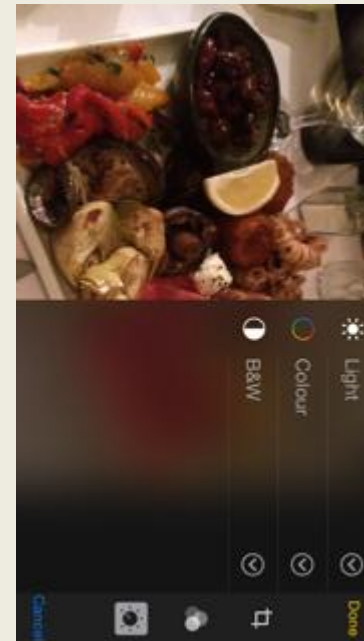

Light / Colour / B&W

Brightness/Exposure

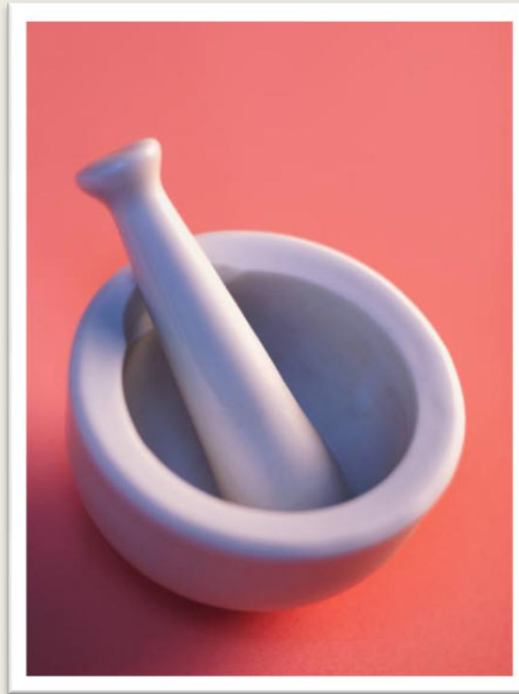

App - Snapseed

Editing Photos

Simple editing is often provided with the camera App, but more specialised editing apps are also available.

General Editing

- Snapseed
- PS Express
- PS Touch
- PicArts Photo Studio
- Filterstorm Neue

Editing Apps

Specialist Editing

- TouchRetouch
- Color Splash
- Mextures
- Nior Photo
- Facetune

Top Tips

1. Always take your phone/camera with you
2. Take lots of photos for each shot
3. Stay still, lean against something, use 2 hands, tripod
4. Moving shots, sports etc... use burst mode
5. Consider light level, Tap for AE/AF
6. Digital zoom (avoid) zoom with your feet
7. Reflections/shadows
8. Scale – include people objects of known size
9. Shoot from different angles
10. Portraits and natural window lighting
11. Clean lens
12. Use grid
13. Headphones, volume buttons and bluetooth shutters
14. Pre/Post process filters
15. HDR on/off/auto

There are many accessories that can add to the photo taking experience.
